

Abstract:

Bachelor's thesis *Emanuel Rádl, his conception of philosophy and education* will follow work and ideas of Czech philosopher and biologist Emanuel Radl. I will study the basic titles of works *Consolation of Philosophy* and essays devoted to partial topics and to the problem of education in the new Czechoslovak state. The theme of the analysis will be how Rádl thoughts were admitted to the society and how its thinking is valued today.

Keywords:

philosophy, education, morality, history, justice, verity, human, hero, nation, God
